

ALL ARE BROUGHT SAFELY TO LAND

TWO HUNDRED PERSONS SAVED FROM DEATH

Requires Work Heroically—Violent Gale In Lake Erie Causes a Disaster That Endangers the Lives of Many—Appalling Calamity Averted By Brave Fishermen.

Sandusky, O., Jan. 22.—The steamer American Eagle, which arrived here Friday from the island region, brought the news of a disaster off Put-in-Bay, by which the lives of 200 persons were placed in imminent peril.

During the winter when the ice is strong enough to hold them, large numbers of the residents of the island region engage in fishing through the ice. Small houses large enough to accommodate from two to six persons, are taken out on the lake on sleds, holes cut through the ice and the houses, which have apertures in the floors, are placed over the holes. Quite as many women as men use the houses.

Thursday while about 200 men and women were in the little houses a fierce gale sprung up suddenly and without warning, the wind reaching a velocity of between fifty and sixty miles an hour. The wind struck these little houses with terrific force, tipping some of them over and carrying others away across the ice. Many of the people were severely cut and bruised. The wind was so fierce that the ice, weakened by rain that morning, began to crack and break along the shore. The line of blue water that marked the break began to widen with appalling speed. Fragments were torn from the main field by the wind, and then came the general breaking up.

Men and women began a mad rush toward the shore, from which relief parties in small boats had commenced to put off to the rescue. The rescuing parties forced their boats in among the broken cakes of ice at the imminent risk of losing their own lives. They worked heroically in the face of great dangers and succeeded in bringing to shore every one of the 200 persons.

Flood at English, Ind.

English, Ind., Jan. 22.—One of the most disastrous floods ever known in English was felt Thursday night, when three of the five bridges over Little Blue river were washed away. Fifty persons, who were on Court street bridge when it went down, were saved with difficulty by other citizens. The town during the night was a pandemonium with the cries of horses, cattle and hogs turned loose by owners. Many horses and cattle were drowned. Many of the houses on the low grounds were four or five feet deep in water. The loss to loggers will amount to many thousands of dollars.

Ohio Above the Danger Line.

Louisville, Ky., Jan. 22.—The river is nearly two feet above the danger line and is still rising slowly. At Shipping many persons have already deserted their homes. Capt. Deven of the life station thinks the worst is over and that the waters will subside unless there is more rain.

Two Killed in a Collision.

Charleston, S. C., Jan. 22.—Train No. 17 of the Atlantic Coast Line, from New York to Florida, and train No. 52, local, from Charleston, met in collision eighty miles west of Charleston at 7:15 Friday morning. Two trainmen were killed and a number of passengers injured.

REVENUE BILL PASSED.

Illinois Senate Gives Measure the Stamp of Its Approval.

Springfield, Ill., Jan. 22.—The senate passed the revenue bill Friday by a vote of 34 yeas to 8 nays. It will be taken to the house Tuesday morning. The only Republican to vote against the bill was Senator Littler. Not a single Democrat voted for the bill.

This action of the Democrats in the senate is regarded as proof conclusive that not a Democrat in the house will vote for the house revenue bill. It is the purpose of the house Democrats to offer amendments next Tuesday which will have the effect of loading it down with objectionable features, and then to cast their votes against it when it comes up on the third reading.

The senate adjourned to 5:30 o'clock Monday afternoon. No business was done in the house. An adjournment was taken to 5 o'clock Monday afternoon.

Deem Draper Irresponsible.

Jacksonville, Ill., Jan. 22.—Dr. L. A. Frost appeared as a witness for the defense in the Draper case Friday. His testimony did not agree entirely with that of Dr. Norbury, the expert, though the two physicians agreed in most particulars. Both said Draper's melancholia, headaches, and hard work had produced mental delusions and rendered him morally irresponsible when he killed Hastings. A great many witnesses testified to their belief in Draper's entire sanity.

Not Actress Kate Forsythe.

Philadelphia, Pa., Jan. 22.—A cablegram has been received in this city from Kate Forsythe, the actress, announcing the death of her mother, Mrs. Kate Forsythe, in London. The similarity of the names led to the announcement that the actress had died.

Gift for Hanover College.

Madison, Ind., Jan. 22.—The widow of Dr. Thomas J. Cogley has presented to Hanover college \$20,000 to endow

COAL MEN FAR APART.

Two Sides Are in a Deadlock at the Chicago Convention.

Chicago, Jan. 22.—A combination of the operators of Ohio, Indiana and Pennsylvania, having twelve votes of the thirty-six in the conference with the miners, Friday defeated the very first proposition which came before the conference—that of "mine run," or gross weight. When the special session adjourned there was a feeling that the opposing sides were farther apart than they were upon the first day of the meeting.

The report of the scale committee showed that on the question of mine run the operators of Pennsylvania, Ohio and Indiana voted in the negative, the operators of Illinois in the affirmative and the entire delegation of the miners in the affirmative. The next two questions—those of an eight-hour day and uniform day scale—were disposed of by the same combination, excepting that the Illinois operatives declined to vote.

At the conclusion of the report it was decided to go into committee of the whole and consider the three propositions which the scale committee had failed to agree on. The first proposition—that the scale be based on the run of the mine—was taken up. The fight for mine run was led by John Mitchell, vice-president of the national organization, and he made a strong plea for its adoption, taking occasion to say that Illinois would never have anything else.

President Ratchford and James Faras of the miners' union favored a double scale rather than have the convention adjourn without arriving at an agreement. This proposition Secretary Ryan of the Illinois state organization declares that the Illinois men will not have.

At the night session F. L. Robbins of Pennsylvania introduced a resolution which provided that a basis for mine run be arrived at through the use of screens, which should be one and a quarter inches between flat bars and have 72 superficial feet, the operator to decide from time to time whether he would work on a mine-run basis, and the rate to be fixed by the miners and operators of the several states. Mr. Ryan offered to amend so that Illinois be left out, and Mr. Dalzell proposed as an amendment that Indiana, Ohio and Pennsylvania agree to go on a mine-run basis. All these propositions were defeated and the convention adjourned until 9 o'clock this morning.

SPAIN WATCHES WASHINGTON.

The Feeling in Madrid Is That There Is No Motive for Interference.

Madrid, Jan. 22.—The feeling in official circles after the dispatches received by Senor Sagasta from Cuba is that the United States no longer has a motive for direct or indirect interference in Cuba.

The government considers that persistence in the "jingo" attitude by the American congress would be contrary to the dictates of reason and justice, and should the Washington government, in deference to the "jingo" tendency, commit unjustifiable acts, Spain would regard them as a veritable provocation whereto she would reply with the energy befitting the country's honor.

It is announced that the foreign minister, Senor Gullon, has received Washington dispatches which provoked a long cabinet discussion.

Favors the Eight-Hour Day

Detroit, Mich., Jan. 22.—More than 200 members and guests of the Alger Republican club enjoyed the ninth annual banquet of that organization in the Hotel Cadillac Friday evening. Features of the occasion were the addresses of Gov. Pingree and of ex-Congressman James O'Donnell, both of whom are aspirants for this year's gubernatorial nomination. Gov. Pingree's principal suggestion was that in view of present lack of employment, caused chiefly by the concentration of wealth and business, that universal eight-hour working laws had become a necessity. As an employer he favored this, and he had written the governors of the various states urging consideration of the question by the legislatures and asking their views.

Politician Under Arrest.

Auburn, Ind., Jan. 22.—Charles E. Everett of Fort Wayne was arrested at his home Thursday on a warrant issued by Eli W. Minor, editor of the Garrett Herald. Everett was arrested on a similar charge a few days ago at Decatur, and is out on bail. It is alleged that while agent for Minor he received \$25 to pay on a note held by Mrs. Maggie McCulloch, and that he appropriated it to his own use. Everett has always been a prominent politician, and for several years held the position of Republican district chairman.

Policy-Holders Lose All.

Indianapolis, Ind., Jan. 22.—The Masonic Mutual Benefit Society made an assignment to Irvin Robbins of this city. Twenty-nine hundred policy holders will lose all they have paid in, including numerous assessments, and there is small prospect of ever realizing anything on the policies. The unpaid policies aggregate about \$160,000. There is due from members about \$50,000.

Inheritance-Tax Litigation.

Indianapolis, Ind., Jan. 22.—Gen. Harrison left for Washington last night to appear before the Supreme court of the United States in the inheritance-tax case, in which the constitutionality of the Illinois law is involved.

MERCANTILE TRADE SHOWS STRENGTH

ENCOURAGING REPORTS BY DUN AND BRADSTREET.

Treasury Receipts Are High—Volume of Business Remarkable for the Time of Year—Bradstreet's Says the Spring Trade Is Opening Slowly—The Week's Failures.

New York, Jan. 22.—R. G. Dun & Co.'s Weekly Review of Trade says: "With a volume of business remarkable for the time of year, 38 per cent larger than a year ago and 10.4 per cent larger than in 1892, in payments through clearing houses, it is not discouraging that one or two industries are lagging. The demand for most goods is more heavy for the season, manufacturing works are better employed and orders booked and in prospect for the future are more encouraging than at this season in any other year of which equally definite records exist. Exports of products continue surprisingly heavy in spite of some rise in prices. Treasury receipts from customs were larger in twenty days of January than in the entire month of October or November, and apprehension regarding the monetary future is no longer felt outside of speculative circles. Failures are considerably smaller than were ever known at this season. Railroad earnings in January thus far reported have been 17.6 per cent larger than last year and 10.3 per cent larger than in 1892.

"Failures for the week have been 374 in the United States, against 409 last year, and 53 in Canada, against 65 last year."

Bradstreet's says: "A large measure of activity in business and industrial lines, with, in some instances, previous records surpassed and very general steadiness in prices of staples, is perhaps the most notable feature of the trade situation this week. Quotations of cereals show the most aggressive strength, while those of some makes of pig iron betray rather more decided weakness than they did a week ago. Spring trade opens slowly, as usual at this time of the year, but confidence is still unimpaired. The outlook in the steel-trade is reported as a flattering one.

"Quite a shrinkage in cereal exports is indicated by reports this week. Total shipments of wheat, flour included, from the United States and Canada, amounted to only 3,926,000 bushels, against 5,229,000 bushels last week. Indian corn exports also show a heavy falling off, amounting to only 3,486,000 bushels this week, against 4,461,000 bushels last week."

Indiana Orators Compete.

Indianapolis, Ind., Jan. 22.—Two thousand students from Indiana colleges made their annual pilgrimage here Friday to attend the state college oratorical contest. Jesse L. Holman, Franklin College, was elected president. There were seven contestants, and it was midnight before the oratory had ceased. Mr. Nadal of DePau University took first honors. Mr. Reid of the University of Indiana was second, and Mr. Van Uyus of Earlham was third.

May Join Fall River Strike.

Fall River, Mass., Jan. 22.—The weavers of the King Philip mills have decided to ask for a restoration of the old wages. If their request is refused they will seek permission to strike. A special meeting of the union will be held next Monday night to consider the answer which may be returned to this request, and if it be a refusal a strike will be authorized.

To Receive Monetary Delegates.

Indianapolis, Ind., Jan. 22.—The commercial bodies of this city have appointed a committee of 200 representative business men, with Chapin C. Foster as chairman, to receive the delegates to the national monetary convention next week. The executive committee now has a list of 400 delegates to the convention.

Rumor That Gen. Garcia Is Dead.

Havana, Jan. 22.—Although nothing appears to be known on the subject at Spanish headquarters, persistent rumors are in circulation to the effect that Gen. Calixto Garcia, the famous insurgent leader, was killed in a recent engagement with the Spanish troops.

Nebraska Official Charged with Fraud.

Nebraska City, Neb., Jan. 22.—A warrant has been issued for the arrest of William Ebright, late superintendent of the institution for the blind, charging him with obtaining \$500 from the state on fraudulent salary vouchers.

Mayor McKisson to Contest.

Cleveland, O., Jan. 22.—Mayor McKisson declines either to affirm or deny the report that he would contest the seat of Senator Hanna. Advices from Columbus, however, state that such a contest will be made.

Senatorial Fight in Tennessee.

Nashville, Tenn., Jan. 22.—Fifteen fruitless ballots were taken last night in the Democratic senatorial caucus, and the last ballot left the situation about the same as on the first ballot.

Bishop Potter May Retire.

New York, Jan. 22.—There is a report that Bishop Potter of the Protestant Episcopal church will quit New York and take up his residence in England.

M'KENNA CONFIRMED BY THE SENATORS

WILL TAKE HIS SEAT ON THE SUPREME BENCH.

Mr. Allen Protests But Vote Shows That the Opposition Was At No Time Formidable—Urgent Deficiency Bill Sent to Conference by the House—Will Vote on Silver.

Washington, Jan. 22.—The Senate devoted its principal attention to executive session Friday to the nomination of Attorney-General McKenna to be a justice of the supreme court of the United States. Senator Allen presented a large number of documents in support of his contention that Mr. McKenna was not competent to discharge the duties of the high office of justice of the supreme bench. He was interrupted by Senator Perkins of California, who read a published defense of Judge McKenna, giving statistics to show that he had not, as judge of the California federal court, been more frequently reversed by superior tribunals than had other judges of the same rank.

Mr. Allen said he was convinced of Mr. McKenna's unfitness for the office. He did not insist upon a roll call when the vote was taken, and the vote was overwhelmingly favorable to confirmation.

IN THE HOUSE.

Public Land Laws Extended to Apply to Alaska—Other Questions.

Washington, Jan. 22.—There was a parliamentary struggle in the house Friday over the bill for the relief of the book publishing company of the Methodist Episcopal church, south, which was before the house last Friday. By shrewd maneuvering its opponents succeeded in preventing action. Previous to the consideration of this bill the house passed the bill to extend the public land laws of the United States to the territory of Alaska, and to grant a general railroad right of way through the territory. The urgent deficiency bill was sent to conference. The silver forces had succeeded in concurring in the senate amendment, striking from the bill the provision requiring the depositors of bullion at government assay offices to pay the cost of transportation to the mints.

Silver Men Protest.

Washington, Jan. 22.—Chairman Towne of the silver Republican committee and A. J. Warner of the Bimetallic League have sent a reply to the banking and currency committee relative to the application of Messrs. Warner and Towne for a hearing before the committee. The reply says: "An application was made to your honorable committee for a hearing in behalf of representatives of the American Bimetallic Union, and we were designated as such representatives. Having for many years been somewhat familiar with the procedure of committees of congress in similar cases, we could not anticipate the refusal of such a request. So far as we are aware, this is the first time that in a matter of so much importance a great congressional committee engaged in giving hearings on a proposition before it has refused to accord a full and fair hearing to both sides."

Work of Currency Committee.

Washington, Jan. 22.—The committee on banking and currency, having concluded its hearing, extending over many days, on the question of revising the currency, will begin next Wednesday to consider the question of a report on some one of the numerous propositions submitted. The members of the committee differ widely as to the outlook for affirmative action, some of those in leading positions declaring that the hearings have demonstrated that it will be impossible to secure a majority for any one proposition. Others are more hopeful, and say that a composite measure, embodying the essential features of the Gage bill and monetary commission bill is likely to command sufficient votes to be reported.

Senate Will Vote on Silver.

Washington, Jan. 22.—An agreement was reached by the senate Friday that a final vote on the Teller resolution providing that the bonds of the United States may be paid in silver dollars and all pending amendments thereto should be taken up next Thursday before adjournment. Mr. Allison (Iowa) made the significant statement that an amendment to the resolution that would cause some debate would be offered late in the discussion, but gave no intimation of the nature, scope or intent of the amendment.

To Look Into Ohio Trusts.

Columbus, Ohio, Jan. 22.—Following close upon the repeal of the 50-year franchise bill, the favorite scheme of Senator Hanna's brain, Senator Valentine introduced a resolution in the senate which provides for the appointment of a senate committee to Lexow the trusts, state and foreign, which are doing business in Ohio. The object is to discover the nature of the organizations, the plan of operation and the effects of their work upon the business world. Senator Hanna is interested in a majority of the trusts.

Gold Fields in Brazil.

Rio Janeiro, Jan. 22.—Important gold fields have been discovered in the state of Goyaz.

IOWA LEGISLATURE.

Hard Contest in Progress Over the Printing and Binding Offices.

Des Moines, Iowa, Jan. 22.—The fight for the abolition of the offices of state printer and state binder developed in the legislature Friday. In the senate the concurrent resolution to elect the warden, state printer and state binder at 11 o'clock was passed by a vote of 30 to 11. Under the rules it was laid over for consideration until today. The Des Moines Typographical union has issued a protest against the contract system.

Several appropriation bills come to the fore. The agricultural college asked for \$44,475; institute for the feeble-minded, \$47,406; home for soldiers' orphans and destitute children, at Davenport, \$50,050; completion and equipment of the new hospital for insane at Cherokee, \$279,000.

Representative Blake offered a bill making it a misdemeanor punishable by a fine of \$500 for a candidate for any office to treat any legal voter during the campaign to any liquor, and providing that any person convicted of such a misdemeanor shall be ineligible to hold the office for which he is a candidate.

TALKS FOR HIS LIFE.

Adolph Luetgert Testifies in His Own Defense.

Chicago, Jan. 22.—Adolph Louis Luetgert began his story Friday. When court adjourned the defendant had not reached a point in his tale bearing directly on the crime with which he is charged. He will continue on the stand today.

Watching Developments in Havana.

Washington, Jan. 22.—All reports from Havana are peaceful. But Havana has not yet heard of the Atlantic squadron moving south, nor of the Cuban debate in the house of representatives. The press censorship in Havana has kept this news from the people there. When it is known that the big warships of the United States are not far away, and that the friends of President McKinley have assured congress that he will soon take another important step in Cuban matters, there may be another outbreak by the adherents of Weyler. If there should be, American warships will be in the harbor at Havana soon after.

Want Protective Duties on Oils.

Paris, Jan. 22.—The minister of commerce, M. Boucher, Friday received a deputation representing the manufacturers and business men of several departments, who urged that protective duties be imposed upon oils and oil seeds. M. Graux, president of the customs committee of the chamber of deputies, said America was swamping the European markets with cheap oil seed, thereby causing a big break in the prices of industrial securities. Therefore, he added, the interests they represented were joining with the agriculturalists in asking that measures be taken to prevent their common ruin. M. Boucher gave no encouragement to the deputation.

Schaefer Plays Wonderful Billiards.

Chicago, Jan. 22.—"Jake" Schaefer broke all billiard records Friday afternoon. He made an average of 40 in 400 points against Catton at the new 18-inch game, no shot in. The score was 400 to 93. It is the greatest performance ever accomplished on a billiard table. It dwarfs into insignificance the old averages made at the 14-inch game. It is far better than Ives' average of 31, made in the New York tournament a couple of months ago.

Coal Fever in Michigan.

Owosso, Mich., Jan. 22.—Bay, Saginaw and Shiawassee counties, comprising the bay district of Michigan, are in a fever of excitement over valuable coal discoveries. Within the last thirty-six hours over 20,000 acres of coal land have changed hands. Bay county seems to have the best of it so far. Capitalists and experienced operators are flocking in on every train, and the excitement bids fair to develop into a craze.

Want Prosperity Wages.

Indianapolis, Ind., Jan. 22.—The employees of nearly all the big railway systems in this state ask increased pay. The officers of the Cincinnati, Hamilton & Dayton road are in conference with the trainmen on the different divisions. The men say they were promised better wages with the return of prosperity, and the roads, they say, were never doing more business than at this time.

Great Distress in Italy.

Rome, Jan. 22.—In the chamber of deputies Friday the premier, the Marquis di Rudini, explained that the recent disorders in the Italian provinces were due to the dearth of food and lack of employment owing to retrenchments in public expenditure. The troubles, he continued, were also exploited by agitators, and the government had ordered their severe repression.

Adventists May Get the Contracts.

Lansing, Mich., Jan. 22.—It is stated on authority that the Adventist Publishing Company of Battle Creek is the lowest bidder on both binding and printing to be let by the state contract for two years from July 1. The Adventist company employs a large force of non-union workmen.

For the Temple Amendment.

Des Moines, Ia., Jan. 22.—The Temple amendment bill was adopted by the house railway committee without opposition.

A PRIVATE BANK SHUTS ITS DOORS

MARQUETTE, MICH., CONCERN CLOSED UP.

The Proprietor Is Sick Unto Death, and an Assignment Is Made—Creditors Will Probably Be Paid Up In Full—No Statement Is Made.

Marquette, Mich., Jan. 22.—[Special.]—J. M. Wilkinson's private bank closed its doors this morning, an assignment being made by J. M. Wilkinson to his son, L. C. Wilkinson and his son-in-law, A. L. Mueller. Mr. Wilkinson is at the point of death. The assets not known, but the creditors will probably be paid in full.

Scotfield Has Not Decided.

Madison, Wis., Jan. 22.—Governor Scotfield says he has not reached a decision as to the appointment of a Supreme court justice.

JAPAN PREPARES FOR WAR.

Fleet of the Mikado Ordered to Sail for Chinese Waters.

London, Jan. 22.—The St. James' Gazette, commenting upon the dispatch from Yokohama saying that a fleet of nine Japanese warships will leave Japan in the course of a week for Chinese waters, says:

"Japan is prepared for war. That, in a long nutshell, is the news from Yokohama and it is really the first news from Japan since the beginning of the Chinese crisis. It was obvious that the Japanese government had stopped telegraphic communication, which it never does except when mobilizing the army or navy. That is what it has been doing. It is almost certain that the destination of the fleet is Wei-Hai-Wei, and there is no doubt the movement means that the status quo in China, so far as Manchuria and Korea are concerned, shall not be altered by Russia or any combination of Russia's allies in defiance of Great Britain and Japan. So long as the defender's policy is equality of opportunity in China they are in a position to enforce their claims."

Decides to Incorporate.

Springfield, Ill., Jan. 22.—At Friday's session of the Illinois Live Stock Dealers' convention a committee was appointed to incorporate the association under the laws of the state. The questions of marking fat stock, hog-producing, sugar beets, public sales of pure-bred stock and breeding and exhibiting pure-bred stock were discussed. Col. Fulkerson made a report as to the prospects of getting money from the state appropriation for the exhibition of the various kinds of live stock at the Omaha exposition.

Currency Notes for Gold.

Calcutta, Jan. 22.—The bill introduced by Sir James Westland, the finance minister of the council, Jan. 14, providing for the issue of currency notes in India against gold, has been adopted, with the condition that the secretary of state be given the option of paying gold into the treasury, provided India pays an equal sum into the currency department here. The bill has already relieved the stringency of the money market.

Investigation Fairly Started.

Cincinnati, O., Jan. 22.—The senate committee investigating the Otis charges of bribery in the senatorial contest held a session here last night. It is charged that H. H. Boyce of New York came to the Gibson House a few days before the balloting for senator began at Columbus and made a proposition of bribery to Representative Otis.

United States Mining Laws.

Washington, Jan. 22.—The interior department has issued a pamphlet reproducing in compact form the mining laws of the United States, with the regulations that have been adopted to make them effective. The latter contain suggestions as to the manner of reservation, exploration, location, possession, purchase and patenting of the mineral lands of the public domain.

Death of Judge John M. Scott.

Bloomington, Ill., Jan. 22.—Judge John M. Scott, one of the most prominent men of central Illinois and for twenty-five years on the Supreme bench, died at his home at Bloomington Friday morning. He had been ill with a carbuncle on the back of his neck for a month and his death was not unexpected.

Secretary Alger Recovering.

Washington, Jan. 22.—A thorough examination into Secretary Alger's physical condition has been made by the attending physicians to ascertain if he was suffering from any organic trouble. On its conclusion the gratifying announcement was made that the secretary was sound in every way, and, at the present rate of improvement, will be up and about in a week or ten days.

Copsett and Fitz to Fight.

New York, Jan. 22.—A close friend of Dan Stuart said last night: "Copsett and Fitzsimmons will fight in July at Carson City. This is a certainty. All this talk and bluff is simply to advertise the two men. When the time comes they will sign publicly, after two or three failures, just to keep up the farce. The purse has not been named, but it will be the largest ever fought for."

WHAT MR. SMITH SAW IN THE EARLY DAYS

EZRA GOODRICH WRITES OF A
PIONEER.

Eventful Life of the Man Who Recently
Passed To His Final Reward—
Had Much To Do With the
Early History Making In Badger
State.

Pioneer incidents in the life of the late Isaac T. Smith from the note book of Ezra Goodrich:—Smith emigrated west in 1834 from Chautauque county N. Y., at the age of seventeen years. At Michigan City he found one hundred new settlers surrounded by sand hills. From there to Chicago he passed but five houses, among them being Bennett's, Widow Berry's and Colonel King's.

At Chicago he found Fort Dearborn and three hundred citizens, and encamped on the prairie and in the bushes surrounding them were seven thousand Indians, squaws and papooses, receiving their government annuity. They drew \$9 each, and were paid in silver half dollars, and the squaws received the money for each family, which they tied up in the inside fold of their blankets. Two Indians tried to rob a squaw by springing upon her in the bushes and cutting her blanket, letting the money out on the ground and trying to get it, but she gave a yell that brought other Indians to her rescue, and the robbers left with but little booty.

His Stop In Chicago

Smith saw the long, light hair of a white woman hanging by the scalp from an Indian's belt.

He helped load a schooner there, on which George Walker, Byron Kilbourn, Alonzo Sweet and Mr. Hubbard took passage for Milwaukee, where they bought claims of Solomon Juneau, and were early pioneers of Wisconsin.

In the fall of 1835 Smith came up to Wisconsin by the Lake Shore Indian trail. It was four miles from Chicago to Butterfield's, the first house; then twelve miles to Willrath's, the next house; ten miles to Osted's; four miles to Patterson's; ten miles to McEwen's; ten miles to Sunderland's, at the territorial line; and twenty miles to Skunk's Grove, near Racine, where he stopped until spring. During the winter he helped Colonel Isaac Butler put up the second frame house in Racine.

In May, 1836, he, with his brother, D. F. Smith, came out to Rock River with H. F. Jones, the founder of Janesville, who made a claim and built a shanty where the Lappin block stands Houses Then Built.

It was four miles from Skunk's Grove to the first house, McCall's, at Trees Grove; the next house was Goodrich's, at Fox River, and the next was Samuel St. John's, at Spring Brook, below Janesville, on Rock River. Judge Holmes had a claim at Hickory Glen, up the river, which he sold to Samuel Sheldon, and Dr. Heath had a shanty down near Monterey. St. John, Holmes and Heath came in the fall of 1835.

Smith made his first claim up the river, the Strunk farm; his second claim where the school house stands, east of Mount Zion; his third the Goodrich and Alexander farms at Milton; and his fourth at a big spring at Otter Creek, the Scott Robinson farm, where he and his brother built the first saw mill in Milton, and lived for many years.

Smith's first log shanty there was 14 feet square, and he built it without a nail. He roofed it with long shakes split from large oak trees, which were held in place by long tamarack poles. He hung the door with wooden hinges and it had a wooden latch, which was raised by a string running through a hole in the door; and, to latch the door he pulled the string in.

Furnishings Simple.

If he wished to go away from home, he slid a shake to one side and crawled out of the roof, sliding the shake back to its place again. He made a bedstead in one corner of the shanty, with only one side-rail, one end-rail and one post; by putting one end of each rail into auger holes in the logs at the side. It had long split oak springs covered with prairie hay; and, it was a dandy bed for its day.

On this farm the first white child in Milton was born; Daniel Smith, son of Daniel F. and Eliza Smith; born Feb. 25th, 1839. He died in Feb. 1844.

Smith helped Joseph and William Spaulding roll up the logs for a shanty, on their claim on Milton Avenue, March 14th, 1837; the day Van Buren was inaugurated president.

He helped ferry Joseph Paine, our first mail carrier, over Rock river with the first Rock county mail; which

brought the commission for our first postmaster, H. P. Jones. Postmaster Carey came out from Racine, with the keys and unlocked and delivered Janes his commission and the postmaster Jones carried the letters in his hat and delivered them to the pioneers. Postage on letters was as high as 25 cents each.

First Wedding In County.

Smith attended the first wedding in Rock county, before the county was organized, at the house of H. F. Jones. It was the marriage of Clarke Waterman and Betsy Hall. They had to be posted in three conspicuous places in the county, or go to Racine, the county seat and get a license. They posted notices on Jones', St. John's and Heath's shanty doors.

They were married by Daniel Smiley who had just been appointed a territorial justice of the peace. There was no other girl here to act as bridesmaid, and they made a substitute by Moses Fenton putting on Mrs. Jones' dress and acting as such.

Smith had an interesting experience in driving a yoke of little steers out from Skunk's Grove for Janes. At Janes' Grove they ran around a stack of hay and fell down a large open well that was drifted over with snow, and was thirty-five feet deep. It did not hurt them much, but both the steers and the well were in a bad fix, and to get them out with no windlass or rope was a problem for a pioneer. But they threw in small forksfull of hay, and the steers kept climbing on top until they filled the well up so as to get them out. But another incident was in store, which saved the steers from future hard work on the plow in a breaking team.

Had a Stable.

Janes kept a pony in a hovel where the logs were not chinked between. Where the steers were left out to browse around and they learned to run their tongues in between the logs and lap out the pony's hay; and he bit off a steers tongue. And so Janes killed them and they made many meals of nice meat for Rock county pioneers. But there is no end to our pioneer incidents, and this article is getting too long, and we close. EZRA GOODRICH.

DEBATE ENDS IN A TIE SCORE

Judges Unable To Decide at Good Templars Hall Last Night.

The judges could not decide as to which side won the debate at Good Templars hall last night, both the W. O. T. U. and the I. O. G. T. speakers having received nine points. Hence the debate was not decisive, and was called a tie. The subject was "Resolved, That the W. O. T. U. has done more to promote the cause of temperance than the Good Templars."

Mrs. E. E. Yates and Miss Maria Gibbs spoke on the affirmative and W. G. Kildow, Mrs. George I. Stratton and Miss Kate Humphrey for the negative. The judges were Miss Bennett, Leslie Williams and G. Elmer Hansen.

LEAVES ON TUESDAY FOR FARAWAY LAND

PRESIDENT AND MRS. EATON'S
PLANS.

Next Saturday Will Find Them In
Vancouver, and On Monday They
Will Sail For China On the "Em-
press of Japan"—The Object of The
Visit.

Beloit, Wis., Jan. 22.—President E. D. Eaton of Beloit college, has been asked by the American Board of Foreign Missions to be one of a committee to inspect the work of the society in China and he has accepted. It seemed best to the board to send this committee, since the China missions have never been inspected in this way and have been asking for advice and help.

President Eaton's fitness and his great interest in the work and his insight into all educational affairs, were recognized and he was asked to go. Besides this it seemed peculiarly fitting that a Beloit man should go since many of the missionaries in China, the Porters, the A. H. Smith, the Peckes, are either graduates of Beloit or are intimately connected with Beloit life.

Was Loth To Leave.

Such committees have been sent before, though never to China. President Chapin went to Turkey in 1883 to help settle a dispute between the Christian and the native church.

President Eaton is loth to leave his work for so long a time, but he consulted with the Chicago trustees on Tuesday and has spoken to others and they were unanimous in advising him to go.

Dr. Pearsons, the largest giver to the college and a warm friend of the North China mission, strongly urged Dr. Eaton's acceptance.

At a meeting of the faculty last evening they spoke freely of the president's going and removed any doubt as to their willingness to carry on the college work alone.

Experience of Value.

It is a recommendation for the college that President Chapin and President Eaton were the only college presidents asked to undertake a mission of this kind.

The wider experience which President Eaton will get, not to speak of the recreation of the ocean trip, will prove exceedingly valuable to him. He will be back in four months, in time to prepare for commencement and to participate in the exercises.

The other members of the committee are Judson Smith of Boston, secretary of the board, and Col. Hopkins, an influential member of the Prudential committee.

Mr. Eaton will accompany her husband, and they will start Tuesday next reaching Vancouver on Saturday and sailing on the Empress of Japan on Monday.

WHAT FULTON FOLKS SAY

Sleigh Ride and Dinner Party—Many Busy Filling Ice Houses.

Fulton, Jan. 31.—The young Americans to the number of fifteen took a sleigh ride to Edgerton Monday evening. A most enjoyable time was had if we were to judge by the music. Sleighbells are quite numerous. Mr. and Mrs. L. N. Carrier entertained a select party to dinner Tuesday, those present being Spafford Allen and wife, Alf Hubble and wife, Frank Sayer Sr., and wife, James Drown and wife. A good social time was enjoyed by all. William Bradley and Peter Beiderman have been drawing staves to build a culvert at Fred Hubble's. Masons are at work there now. B. F. Martin will be ordained at the church in this village, Feb. 4. A goodly number from out of town are expected to take part. The musical Friday evening passed off very pleasantly and a nice little sum to help along the good work was realized. A number from Edgerton were present. Miss Minnie Keen Brown passed Sunday with her grandmother, Mrs. Sarah Keen, returning to Edgerton Monday, where she is attending school. Proctor Clough came from Albion on Friday night, to visit among his friends, Saturday. L. Jones and wife of Milton Junction, were in town, Monday, visiting at Robert Murwin's. Superintendent William Ross of Footville, visited our schools Monday, and found them in a very flourishing condition. On Monday, Charles Stewart delivered eighty as fine pigs as Porter can boast of, to Edgerton parties, at a good price. Filling ice houses has been busy work this week. Fine ice is being put up, and the work is well under way. Mrs. Frank Brown entertained her sister, Marcia Gosseling, and niece Aggie, and a lady friend from Janesville, Monday. E. O. Tallard of Edgerton, was in town, Sunday. Miss Jane Pope has been entertaining the gripe. Mr. and Mrs. George Murwin visited Milton Junction, Sunday. Born to Mr. and Mrs. George Lantz on Saturday, Jan. 15th, a son. Mrs. Sam White who has been very sick with neuralgia, is better. Mr. and Mrs. S. B. Kenyon of Janesville, were in town Wednesday on business. William Bigger and George Murwin, passed Wednesday in Stoutington. Josie Brown and Annie Harris are visiting in Magnolia this week at Mr. Hughes's.

A THEATRICAL BUDGET

Paul Potter's New Play, "The Conquerors," Is Audacious.

HAS MANY POWERFUL SITUATIONS.

"The Salt of the Earth" Has Not Been Enthusiastically Received in New York. Actors' Careless Work "On the Road." How Chevalier Got Even With a Critic.

"Audacity" appears to be the watchword just now in matters theatrical. Not only is this true of the more frothy forms of entertainment. The virus has entered the dramatic body, and it is evident that no portion of it is to be spared.

The Empire Theater Stock company of this city is far and away the best organization in this country. There is not a stick in it, and it contains several actors whose superiors in their lines of work do not exist anywhere. The plays are mounted apparently without regard to expense, and there is an air of respectability about the theater which cannot fail to impress even the occasional visitor. And yet Paul Potter's drama, "The Conquerors," is now the attraction at the Empire. Paul Potter is one of the best living writers for the stage, as he is perhaps the most cultured, but it is doubtful whether his reputation will be benefited by "The Conquerors." He has evidently become addicted to the habit of being audacious, for there is scarcely a critic in this city who is willing to admit that anything more "frank," to use a mild term, has ever been seen here, at least in a respectable and dignified house like the Empire.

While there is practically but one opinion as to the boldness of "The Conquerors," there is some difference as to its dramatic value. To some persons it is a wonderful bit of construction, while to others it is theatrical and in many respects even stupid and intensely unreal. Still, the chances are that it will have at least a moderately successful career, for there can be no denying that the story is a very strong and interesting one. It deals with the Franco-Prussian war and the gradual "respectabilizing" of a brute of a uhlan officer through the awakening of a real love for the girl for whom at first his feelings were most contemptible. It is difficult to tell the story without offending the sensibilities of the super-squeamish, but there are several powerful situations

off in the receipts to a greater extent than everybody else combined.

To the average actor in this country there is but one city in North America, and that is New York. If he is playing here, even though he be on the Bowery, in Harlem or in one of the houses well down town, it is, after all, New York, and he does his level best, the while hoping against hope that he will get a notice. In reality from the standpoint of the critics these houses are not regarded as being strictly within their territory, and it must be an absolutely new and rather pretentious production to lure them away from the Rialto district. But the actor knows nothing of this. He is in New York, and that is enough for him. He will not lose a point; he gets to the theater a half hour before he is due and is as nervous as though he were about to create a role. But just put that same player in one of the smaller cities within a half hour's ride of New York and note the difference. I had a striking illustration of this a few evenings ago, and it occurred in the eastern district of Brooklyn, which, by the way, will never be in New York, according to the actors, the greater city consolidation to the contrary notwithstanding.

One of the best known actors in this country was the principal offender on the occasion in question, although he was the star of the company. The cast was an excellent one, and the play, with the same star, had had a long run in one of the high class theaters of New York. Yet here was this fellow engaged in the most irritating horse play with the other actors, gaudy them and the author's lines at every opportunity, and doubtless feeling that as he was having a good time the audience was correspondingly amused. This performer would not have behaved in that outrageous manner in a theater in this city for \$1,000, but he cared very little for the opinion of "outsiders" and proceeded to make a monkey of himself. He will find that his former patrons will resent this insult by nonattendance should he ever visit the same house. But, after all, this very stupidity is one of the most pronounced characteristics of the average actor. It is unbusinesslike and unconventional to behave in that manner, and therefore he does it.

Helen Bertram's success in London is a genuine one, for not only do the members of the American colony there write enthusiastically to their friends in this city concerning the hit she has made, but the foreign papers all praise her highly. This is especially gratifying in view of the fact that when the young lady first applied for a position to the director of the Prince of Wales' theater it is said that she was asked to sing and was then pleasantly informed

IN HUNGARIAN STYLE.

He Rose and Bowled When They Entered the Church.

"Other times, other manners," remarked the man in the big leather armchair to the Detroit Free Press man, "ought to be amended to read, 'Other countries, other manners.' Not long ago I went back to the small country town of my boyhood to make a short visit, and while there the whole town was set agog by the appearance of a highly interesting foreigner—a Hungarian of noble birth. No, he wasn't a barber in disguise; he was a genuine titled Hungarian. One of the clever, pretty girls of Smalltown had gone abroad to study music, and had there met and made a serious impression on this Hungarian gentleman, who had crossed the water to make her a visit. He held a military position in his own country, and the tails of his military coat—lined with a brilliant red—nearly prostrated the entire community. One Sunday morning he accompanied the young lady to church, and, of course, Smalltown was out in full force to get a good look at him. Certainly his church deportment differed widely from anything ever witnessed in this country. He was seated in the pew with the young woman when her father came down the aisle. As the father entered the pew, the tall Hungarian arose, placed his hand across his breast and bent double in a ceremonious bow; then seated himself, the red coat-tails being much in evidence during the salute. When the girl's mother entered a few minutes later the same formal reception bow was made to her. As a rule, Americans do not rise and make sweeping bows in church; but, as is evident, such is the Hungarian fashion, and Smalltown was naturally much interested and agitated over this unusual display of foreign manners."

THE SURE CURE FOR RHEUMATISM.

Trained Hospital Nurse Finds Dr. Greene's Nervura a Wonderful Cure.

Annie I. Duggan, Skilled Hospital Nurse, Cured by Dr. Greene's Nervura, the Best Cure for Rheumatism and Neuralgia the World Has Ever Known.

One of the most skillful trained nurses in this country is Mrs. Annie I. Duggan, of 6 St. Charles Street, Boston, Mass. Her advice and experience as a nurse are worthy of the greatest consideration on account of her high reputation as a nurse, and her words are especially valuable because of their great encouragement to all classes of sufferers.

Mrs. Duggan says:
"I was troubled with Sciatica for over

four months and was treated by three different physicians, but received no relief, and as a last resort my friends advised my trying Dr. Greene's Nervura blood and nerve remedy, which I did, and in six weeks I was a well woman. Although it is four years ago, I have had no return of the trouble.

"My sister also was troubled with rheumatism and I advised her to try Dr. Greene's Nervura, which she did, and received great relief from it. I consider Dr. Greene's Nervura a godsend to me and gladly recommend it."

We would say that Mrs. Duggan's advice as a nurse is endorsed and approved by physicians. Dr. Greene's Nervura blood and nerve remedy is indeed a wonderful discovery and of incalculable and inestimable value to the sick everywhere. It is the surest known cure for rheumatism, neuralgia, headaches, nervous weakness and debility, weak, tired feelings, and all affections of the blood and nerves. It has been proved over and over again in thousands upon thousands of cases that it does cure, that it makes the well.

Physicians know of its great value, for they have seen it perform wonders in restoring health, and they, as well as nurses, recommend it freely to the sick because it is the prescription of the successful physician, Dr. Greene, 148 State St., Chicago, Ill., who can be consulted free in all cases personally or by letter.

THIS DAY IN HISTORY

1265—First English parliament to which knights of shires, citizens and burgesses were summoned.
1661—Lord Chancellor Francis Bacon born at St. Albans; died 1626.
1688—John Winthrop, colonial governor of Massachusetts, born in Suffolk, England; died in Boston 1649. John Winthrop was born to wealth and influence in England. He was active in public life and in a position to encourage the Puritan settlement in America. When the Massachusetts company resolved to transfer to America the whole government of its colonization enterprises, Winthrop was appointed leader and governor.
1788—George Gordon Noel Byron (Lord Byron); born; died 1824.
1870—George D. Prentice, famous wit and for 40 years editor of Louisville Journal, died in Louisville; born in Preston, Conn., 1802.
1883—Paul Gustave Dore, the prolific and prominent French painter, died in Paris; born 1833.
1894—Constance Fenimore Woolson, grandniece of Fenimore Cooper and an author of note, died at Nice, France; born 1848.
1897—Sir Isaac Pitman, inventor of stenography, died in London; born 1813. General John D. Stevenson, veteran of the Mexican and civil wars, died in St. Louis; born 1821.

WOULD LIKE HAWAII.

If the United States should decide not to accept Hawaii's offer of annexation, the fate of the islands would not remain uncertain for any length of time. They are now waiting to be annexed, and if the American people reject it, there are other wide awake powers waiting and anxious to snatch them without temporizing. It is hardly conceivable, however, that the people of this country will be so blind to their own interests as to act in this manner. These islands, as has frequently been said, are the key to the Pacific, as they are in the line of all ships passing up and down that ocean and they will be of vastly more importance to this country when more direct communication shall have been established between the two oceans by means of the Nicaragua canal. Opposition is being urged by some statesmen on the ground that the annexation of the islands will destroy or cripple the new beet-sugar industry. It is impossible to understand why a moment's study of the situation does not eliminate this feature of the discussion. The beet-sugar industry and the sugar industry of Hawaii do not in any way interfere. Sugar beets are now being raised with profit in various sections of the country, nowhere more so than on the Pacific slope, and the California factories have had to compete with the full force of the Hawaiian sugar industry, the treaties of the United States with those islands having, for years past, admitted their sugar free of duty. The condition, from the beet-sugar standpoint, will not be changed in the slightest by the annexation of the islands.

A SIGN OF THE TIMES.

How do the croakers who insisted that the prosperity immediately following the election of President McKinley was only a temporary affair account for the steady and continuous growth of activity in business success in that extremely important branch of the industries of the United States, the iron trade. It is a full year now since the improvement which became apparent immediately following the rejection of the silver proposition and the adoption of protection, and sound money, and this improvement still continues. Dun's Review, commenting upon the condition of the iron trade says: "The iron furnaces in blast January 1 report an output of 236,808 tons weekly, against 226,624 weekly, December 1, with an increase of 12,481 tons in the unsold stocks held by furnaces. While this shows a consumption of 52 1/2 per cent. larger than that of last year, there would be discouraging indications of consumption, but for the fact that several furnaces were stopped for the holiday, and these, with several others, have started since January 1, while the demand for finished products does not diminish. The Penn. Railroad has ordered 100,000 tons steel rails and a new railroad in Maine 12,000 tons, and other orders for cars, railroad supplies, plates, bars, and structural material are unusually large for the season.

Chicago Murderer to Be Hanged.

Chicago, Jan. 22.—The jury in the case of "Chris" Merry and James Smith, charged with the murder of the former's wife Nov. 19, brought in a verdict of guilty in the case of Merry, while Smith was not sentenced to the severe penalty asked by the prosecution. Death on the gallows was the recommendation in Merry's case.

STRIP OF LAND SUIT IS DISPOSED OF

THOROUGHGOOD-TAYLOR LITIGATION ENDS.

Parties Got Together When the Case Was Called Today and Made a Settlement—Two Green County Women Get Divorces—Other Cases Are Passed Upon.

Mayor John Thoroughgood and his brother William Thoroughgood won a victory in the circuit court of Rock county this morning in the case of John Thoroughgood and William Thoroughgood vs. Robt. H. Morris and M. D. Taylor. As the result they come in possession of a small strip of land that is located near the corner of Main street and Fourth avenue and which runs from Main street to the river.

The question at law concerned the ownership of this strip of land, the plaintiffs and defendants' property bordering on the same.

Taylor & Morris, who conduct a machine shop on North Main street, were notified several months ago that a portion of their building rested on a portion of land that belonged to the Thoroughgoods, and an action was commenced in May, 1897, in the circuit court of Rock county, by Sutherland & Nolan, in behalf of the Thoroughgoods, who wished the matter of ownership settled. Whitehead & Matheson appeared for the defendants, and one of the strong points argued was that the property had remained twenty years undisturbed, and no one had doubted its title.

In May the court found for the plaintiff, but the defendants, not being satisfied asked for and were granted a new trial. This morning, when the case was taken up, the attorneys got together and by stipulation settled the matter in a way that was satisfactory to both sides. The court then ordered that the order entered on May 19, 1897, be vacated, and that the judgment entered on Feb. 9, 1897, be confirmed the same as though it had not been vacated, and that the defendants pay all costs.

Two Divorce Cases
Two women residents of Green county were in Judge Bennett's court this morning to tell of the many trials and tribulations of married life—and to secure divorces. Later both went away happy.

Telah Rouse was the first to tell her story and after hearing the points in the case the court ordered the divorce, giving the plaintiff judgment for \$500.

Ella King was then granted a divorce from Ira H. King, and given the custody of the minor children.

In the case of Emma B. Barker vs. Florence B. Snyder et al the court ordered that summons complaint and all subsequent proceedings herein be amended and that the name of J. B. Hannahs be stipulated in place of B. F. Hannahs.

The premises described in the case of Mary E. Devolt vs. Abraham Noble et al were ordered sold under the direction of the court.

TRADES RANCH FOR A FARM

Archie Reid and N. Altemus Arrive at an Understanding

A Stoughton paper says: N. Altemus, one of the wealthiest farmers on Wheeler Prairie, has just closed a deal with Archie Reid of Janesville, for a stock ranch in northeastern Kansas, located in Chase county. Mr. Altemus exchanges his farm of 640 acres in Rock county for the Kansas ranch of 4,511 acres, together with the entire personal property, hay, grain and 166 head of horses of the Norman and Hackney breed. About 200 acres of the land is under the plow and 100 acres seeded to alfalfa clover. There is on the place a good house already furnished, three stone barns and ten miles of stone fence six feet in height. Mr. Altemus takes immediate possession and will stock the farm with cattle, sheep and hogs. His son Charlie starts this week to superintend the ranch. The consideration of the trade represents the sum of \$50,000. The deal was made through Wilson Lane, real estate dealer of Janesville, who is a large dealer in Kansas and Missouri lands.

Resolutions of Respect

At a special meeting of Rock County Pomona Grange, held Jan. 19, 1898, the following resolutions were adopted on the death of Brother Hutch Stockman, who died Dec. 21, 1897.

WHEREAS, Death has again entered our fraternal ranks and we are called to mourn the loss of our worthy lecturer and brother, Hutch Stockman, who was summoned home in the prime of life in the midst of his usefulness. His voice is silent, his vacant chair draped in mourning proclaims in silent language that he is gone from our midst from this mundane sphere to, we trust, a higher and better life beyond.

No one will be more missed from this Grange than he; always ready to do his part toward elevating and educating the people. He was well read in ancient history, his last work in his subordinate Grange being a paper on that subject, which showed that he had given the subject much thought and study.

His bereaved and lonely sister will have the sincerest sympathy of every member of this Grange.

Resolved, That our charter be draped in mourning for sixty days, a copy of these resolutions be inscribed on our records, a copy sent to his sister, and to the press for publication.

WOOLEN COMPANY TO SPEND \$7,000.

Addition Will Be Built, and New Machinery Put Into Operation—Orders Come In a Flood and Business Is On the Boom—Contracts Are Let

Seven thousand dollars will be expended at once by the Rock River Woollen Mill company for improvements. The contract has been let to James Shearer for the erection of a two story brick addition that will adjoin the present mill at Monterey on the south. This addition which will be 30x60 feet will be fitted on the second floor with the latest improved spinning machinery, the same having been ordered from Worcester, Mass. The ground floor will be utilized as the warping department while a portion of the present mill will be rearranged so as to allow more commodious loom room. Jonathan Ellis of Port Dover, Canada, who is the main stockholder, is now in the city, being called here in order that the contracts may be closed and the work of building the addition shed to completion.

"We are obliged to build this new addition to the mill on account of a rush of orders," said Mr. Ellis this noon, "and I believe that a total cost of the building and machinery will be fully \$7,000."

At present about seventy hands are given employment at the mill and so rushing has been the business of late that they have worked several hours overtime each day. Woollen goods have taken a sharp advance of from 25 per cent. to 40 per cent. during the past few weeks and the local mill has been unable to fill the orders that have been arriving of late from the Chicago and eastern clothing manufacturers.

"This rush of business I believe to be the result of a famine in the wool goods market," said Mr. Ellis. "For the reason that there has been such a dull business in the past few seasons. People must be wearing better clothes now."

KLONDIKE CO. IS IN FIELD

Janesville People Offered Stock In New Gold Field Venture.

O. B. Dahl, in the interest of the Eagle Tunnel Mining company, operating in the Klondike district, arrived in Janesville this morning direct from Seattle. While in this city Mr. Dahl intends to look up people who are willing to invest their money in Klondike gold speculating ventures.

"Seattle is crowded with people," said Mr. Dahl, "and it is hard for one to find a desirable place to stay unless he is willing to pay high prices. I have looked all through the larger office buildings trying to secure a place for offices but every desirable room was leased and occupied."

Mr. Dahl's stay here will be brief, but he intends to return within the next few days and make a thorough canvass of the town.

DR. PALMER WILL SOON WED

Will Take a Rockford Girl For a Life Companion.

The Rockford Register-Gazette says: "Dr. C. J. Palmer, a prominent dentist of Janesville, and a former resident of Rockford, where he conducted a cigar store, now owned by Fred Moffatt, is soon to wed a Rockford girl. The doctor says that the announcement must not be made at present, but that the bride-to-be is a prominent vocalist of the Forest City, and that she is a member of the Mendelssohn club."

CALVIN NOT DRINKING MAN

Tells Jail Officials That He Was Not Drunk at Beloit

When James Calvin of Juda, comes up for trial on January 26, he will be charged with attempting to dispose of "one black mare to the value of \$50 and one gray mare to the value of \$50, the property of one Joshua Crall." Mr. Calvin, who is now in jail here in default of \$500 bail, says that he was not drunk when he was in Beloit and that he wants it understood that he is not a drinking man.

PASSED OVER THE BORDER

Funeral of Thomas Knight.

The funeral of Thomas Knight was held from St. Augustine's church, Footville, this morning at 10 o'clock. The interment was in Mount Olivet cemetery, the pall bearers being Patrick Barrett, Joseph Kuipschid, Patrick Ryan and Patrick Knight. Mr. Knight was an old resident of the town of Plymouth, Thursday evening at 6 o'clock, after a brief illness of pneumonia, aged fifty-five years. Deceased had been a resident of Rock county for thirty-nine years. He served in the war of the rebellion, enlisted with Capt. Ira Millmore in the 33d regiment Wisconsin Volunteer Infantry. He was mustered out in August, 1865, and has since followed the occupation of a farmer and has won the respect of all who knew him. He leaves a widow and seven children.

Ivory Thousands of Years Old.

The durability of ivory is proved by the fact that billiard balls which for the sake of curiosity had been made of very well preserved mammoth ivory undoubtedly many thousands of years old, were played with for several months by experienced players in Paris without it being noticed that the balls were not made of fresh ivory. Mammoth ivory is, as a rule, not as tough as fresh ivory.

A BAR SERMON

A Deep Grounded Respect For Cool Common Sense

Weak men study to do exactly what has been done before. Great men understand that each day is a new day. A weak man takes a drink that he does not want, because he is asked. The thoughtful man whose mind is capable of governing things and men, as well as himself, says "Thank you, I shall be pleased to join you if a liquor be used that will add to our vitality and ability to do things. If not I know you will excuse me, for health is paramount and reason should govern."

Fine sermon that, over a fancy mahogany bar, but, after all, every man deeply respects the individual who is guided and governed by cool judgment and common sense. If one finds his habits of food or drink are producing some hints of disease he should heed nature's plaints and properly adjust his diet to keep his beautiful machinery in order.

One does not always know where to commence to correct a diet, but one of the surest spots is coffee, a most skillful and insidious enemy that "sings one to sleep and knifes him."

Its slow, but sure effect on heart finally produces weak pulse and weak faint feelings at times which grow slowly but steadily more pronounced unless the cause be removed.

Postum Food Coffee furnishes a delicious beverage, high in nutritive value, for those who are troubled with coffee.

It has been widely imitated but the pure can be obtained in the sealed packages with the red disks thereon containing the trade mark "It makes red blood."

MILTON JUNCTION PUPILS WITHDRAWN.

Seventh Day Adventists Start a Parochial School Where the Scholars May Hear the Divine Word Read and Abandon the Public Institutions of Learning.

Milton, Jan. 22.—The Seventh Day Adventists of Milton Junction are about to withdraw their children from the public schools of that place. They have furnished the rear room of the block occupied by their office, the headquarters of the Wisconsin Advent Tract society, with seats and other necessary furniture for school purposes. A teacher from Battle Creek, Mich., will be in charge and some twenty five scholars will leave the High school and enter the new school. The Adventists allege that their reasons for embarking in the enterprise is that the Bible should be an important feature in the public school curriculum, and as it is excluded entirely from the public schools, it is their duty as Christians to embark on this work, thus following in the wake of the Catholic and Lutheran denominations and instituting parochial schools.

CHEAP COFFEE IS VERY GOOD

Ten Cents Will Buy a Pound Now Days—Drop in Price.

Ten cent coffee has been the theme of many conjectures among Janesville housekeepers. They could not see how real coffee could be sold for that price. Real coffee it is, however, better coffee than was sold two years ago at 20 cents. The price cannot go much lower although another cut has been made by warring coffee-sugar interests. The Woolson Spice company has reduced its price on roasted coffee 1/2 a cent a pound and the cut has been promptly met by Arbuckle Bros. This makes the price on roasted coffee 8 1/2 cents a pound, against 12 1/2 cents a pound which was the price about a year ago when the war on prices began. The package coffee in the market now all retails for 10 cents a pound. This is the lowest it has ever been, and about as low as the price on green coffees.

State Dairy and Food Commissioner Causes Arrest Of a Beloit Firm.

W. W. Chadwick assistant state dairy and food commissioner was in the city today being on his way to Beloit. This afternoon he walked into a Line City grocery store and caused the arrest of the proprietor on the charge of disposing of oleomargarine contrary to law. The firm was selling colored "oleo," while the state law says that it shall not be colored to represent butter. The fine is not less than \$50 or more than \$500.

Our Foremothers.

The Tribune has no desire to insist the word "she" shall always be placed before or after the word "he" in order that women may have their fair share of recognition. It is quite willing to accept the generic use of masculine terms and to claim woman's right to vote under the masculine pronoun as now they are taxed under it and would be punished under it if they commit any crime. Still it is refreshing to find this nation's obligations to women as well as men clearly and definitely recognized in the halls of congress, where they have been treated with scant consideration. Senator Allen of Nebraska, in his resolution for the recognition of the independence of Cuba, which he introduced on the third day of this session, pointedly included women among those who had laid the foundations of this nation's liberty. He said:

"When the splendid men and women of 1776, by their valor and devotion to the cause of liberty, erected the standard of a republic on this continent and tore down the banner of King George and threw it into the street, all Europe said they were incapable of self government and that a republic would be a failure, but we can thank those men and women for statesmanship and patriotism of a high order and for placing us in possession of a continent where true manhood and womanhood are above all other considerations and where they count for so much."—Woman's Tribune.

If Denver Women Had Their Way.

If the women of Denver had the doing—

The auditorium would be built. Carlisle would materialize. The short line to Cripple Creek would be a "go."

Taxes would be lowered. Interest would be lessened. Arbitration would flourish. The necessity for labor strikes would disappear.

Denver would retain and use its own franchises. It would be sure extermination to stuffing ballot boxes.

The merry gambler would emigrate. Bank failures would be a dangerous pastime.

Sunday closing would close. The curfew law would be enforced or repealed. Politics would vanish from the fire and police service.

Injunctions to keep the nickel in the slot machines running would be unheard of, as well as the judges who would grant them.

These are not all the reforms that would come if women had their way, but they are enough to promise in one day.—Colorado Women's News.

A Pleasure Book.

One of the women's magazines gave an account a few months ago of a woman who kept a "pleasure book." She had had a great deal of affliction in her life, but she believed that at least one pleasant thing happened to everybody in the course of each day. To test her theory she kept a brief diary of the pleasant things, and for years not a day passed that she was not able to record some pleasure, if only a small one.

This struck the present writer as a good idea, and last Thanksgiving day she started a pleasure book. It has proved such a source of gratification and such an encouragement to cheerfulness that she hereby recommends it to all her friends, especially to those who are apt to be at all low spirited. Keep a pleasure book!—Alice Stone Blackwell in Boston Woman's Journal.

Women on Municipal Boards.

Mayor Malster of Baltimore is so appreciative of the aid already rendered by women in the management of public institutions of which women are inmates that it is altogether probable several new women members will soon be added to the municipal boards. Of the three women who are serving with much acceptance Mrs. E. A. Robinson is a member of the jail board, and Miss Kate McAune and Dr. Mary Sherwood are trustees of the poor. Dr. Sherwood, who is a specially brilliant woman, is a native of Ballston Spa, N. Y., and a former Vassar professor.

Dressing the Hair.

Real tortoise shell combs in various handsome patterns are coming into marked favor. If this proves true, the projected style of dressing the hair low on the head, as recently determined upon, will not have a monopoly. There is no reason why the high Spanish comb, with the coiffure en pompadour on the one hand and the coil or braid of hair worn on the nape of the neck on the other, should not severally prevail, in addition to the psyche knot, arranged at the center of the back of the head, from which fall a number of short zephyr curls.

Clubwomen and Club Work.

The tendency among women's clubs to depend upon outside effort for the programmes of their meetings is no new thing. It has grown, however, very noticeable of late and is combated by those who are able to see clearly to what it is leading.

In many department clubs there is a decided if friendly rivalry among the committees as to which shall present the most drawing programme. The re-

sult is that a chairman often values the members of her committee not for what each individual can contribute, but for the influence she may lend toward securing well known persons for the meetings—this where the club does not expect to pay for its outside assistance. In such organizations as have a good balance in the treasury money is freely expended to have the services of distinguished and high priced speakers and leaders.

We are complaining that in social life hospitality has degenerated into a succession of shows where the guests are entertained by this, that or the other conceit, according to the purse and knowledge of the host. The clubs, in becoming lecture bureaus and lyceum courses, are similarly raising wrong standards.

The trouble lies solely in its exaggeration. There are obvious reasons for open meetings several times a year, when expert minds, trained in special lines of thought and effort, shall give of their richness to appreciative clubwomen. But there are equally obvious reasons why the majority of a season's sessions should be dependent only upon what the club itself has to give. In this way the organization becomes self supporting and reaches its best development.—Harner's Bazar.

O. W. O. Hardman, when sheriff of Tyler Co., W. Va., was at one time, almost prostrated with a cold. He used Chamberlain's Cough Remedy and was so much pleased with the quick relief and cure it afforded him, that he gave the following unsolicited testimonial: "To all who may be interested, I wish to say, that I have used Chamberlain's Cough Remedy, and find it invaluable for coughs and colds." When Flowers Cease to Smell.

It is claimed that the perfume of flowers disappears as soon as the starch in the petals is exhausted, and it may, it is said, be restored by placing the flowers in a solution of sugar, when the formation of starch and the emission of fragrance will be at once resumed.

I had the rheumatism so badly that I could not get my hand to my head. I tried the doctor's medicine without the least benefit. At last I thought of Chamberlain's Pain Balm; the first bottle relieved all of the pain, and on half of the second bottle effected a complete cure.—W. J. HOLLAND, Holland, Va. Chamberlain's Pain Balm is equally good for sprains, swellings and lameness, as well as burns, cuts and bruises. For sale at People's Drug Co.'s store, corner East Milwaukee street.

During the past two years, Mrs. J. W. Alexander, wife of the editor of the Waynesboro. (Miss) Times, has in a great many instances, relieved her baby when in the first stages of croup by giving it Chamberlain's Cough Remedy. She looks upon this remedy as a household necessity and believes that no better medicine has ever been put in bottles. There are many thousands of mothers in this broad land, who are of the same opinion. It is the only remedy that can always be depended upon as a preventive and cure for croup. A Fearful Experience

A POSTMASTER LOSES THE USE OF HIS LEGS AND ARMS.

Edwin R. Tripp, of Middlefield Center, Meets with a Hazardous Encounter Which Renders Him Helpless.

From Osego Republican, Cooperstown, N. Y.

Mr. Edwin R. Tripp, the postmaster at Middlefield Center, N. Y., recently had a dangerous experience which left him in a helpless state. His system was so much shattered that it was feared he might never recover.

In an interview with a reporter of the Republican, regarding this experience which had attracted considerable attention, Mr. Tripp stated:

"In March, 1892, I was taken with what I afterward learned was locomotor ataxia, and was unable to walk, and I kept getting worse until I lost the use of my arms. I doctored with two skillful doctors but received no benefit, and also used a galvanic battery but kept getting worse and the doctors told me they could do no more. This was in May and June, 1892. I gave up all hope of ever having the use of my limbs again, and did not expect to live very long. I was unable to dress or undress myself, and could not get around the house unless I was moved in a chair.

"I think it was in June that I read of the case of a man in Saratoga Co., N. Y., who was taken very much as myself. He had taken Dr. Williams' Pink Pills for Pale People which contained, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves, and had been cured by their use.

"I learned that the pills were prepared by the Dr. Williams' Medicine Company, Schenectady, N. Y., and only cost 50 cents a box.

or six boxes for \$2.50 at any druggist's, and sent for two boxes. I used the pills faithfully and they gave me an appetite. I then sent for four more boxes, and before I had taken all of them my feet and legs which had been cold began to get warm.

"I was a member of the Town Board that summer and had to be carried and put into a wagon to go to the meetings, and in fact was helpless, as my neighbors know. In August I could walk around the house by pushing a chair. I kept getting better and managed to move around more, until at election time that year, I walked with a cane to the polls, a short distance from my home. I continued to take Dr. Williams' Pink Pills for Pale People until I had taken eighteen boxes. I could then get around, and to-day walk to the post office and back, a distance of one-quarter of a mile, three times a day, and attend to my duties as postmaster.

"In the spring of 1893 I was elected town clerk, which office I held for three years. I had previously been a justice of the peace for thirty-two years. I am now 70 years of age, and have lived in this town for about forty-six years. For nearly fifty years I worked at the blacksmith's trade. I am able to do work in my garden now, and saw some of my wood. I consider that my restoration to health is due to the use of Dr. Williams' Pink Pills for Pale People.

THE BRADLEY Magazine Exchange.

To the Reading Public of Janesville.

The success attained in other cities of exchanging magazines, warrants us in calling your attention to our method of furnishing periodical literature to our patrons at a nominal cost. The system, briefly, is this: For a stipulated sum, patrons have the reading of four magazines a month, one a week, delivered to them every Monday. The magazines are arranged in sets of four. Any four, however, of those given below may be taken, and if they belong to different sets the charge is averaged. The following is the arrangement.

EXCHANGE NO. 1, 20c A MONTH.

Munsey's; The New Illustrated; McClures; Argosy; Metropolitan or any four you may select from in this class.

EXCHANGE NO. 2, 35c A MONTH.

Review of Reviews; Scribner; Current Literature; Lippincott; Frank Leslie's, Etc.

EXCHANGE NO. 3, 50c A MONTH.

Atlantic; Forum; Harpers; Century; North American Review.

The Rules governing the Exchange are these:

1. The exchange fee for one month must accompany the order, and thereafter the same is payable on the first of each month.
2. The magazines will be delivered and taken up each Monday, beginning with the first Monday in each month, and patrons must have their magazines ready for delivery by 9 a. m. each Monday.
3. The magazines must be kept in good condition, and if injured or lost, patrons are responsible for the retail value of the same.
4. We reserve to ourselves the right of rotation, but guarantee a magazine every week.
5. The list of magazines may be changed every month, provided proper notice is given before the delivery of the month is begun.

Back numbers will be sold at the following rates:

Those of Class 1, for 5 cents a copy.

Those of Class 2, for 15 cents a copy.

Those of Class 3, for 25 cents a copy.

Home Made Soap

You have become accustomed to using one brand of Soap, perhaps. Many housekeepers do. We hope your favorite is WHITE NICKEL because we know you have the very best Soap made. If you never have tried WHITE NICKEL let us give you a few reasons why you should:

First—Because it is made solely and purely from pure tallow and coconut oil, the two things necessary articles to good Soap. Second—Because it has a lasting quality from its purity that other Soaps have not; it does not jelly and dissolve rapidly. Third—Because it contains no impurities that are most certainly injurious to fabrics and clothing; resin and marble dust help the manufacturers of many well known Soaps but not the consumer; WHITE NICKEL is free from these harmful ingredients. Fourth—Because one bar of WHITE NICKEL does the work of two of other Soaps.

We have many testimonials from users of WHITE NICKEL SOAP:

MR. C. A. CARTER, Steward State Hospital for Insane, Mendota, declares: "The aggregate cost of WHITE NICKEL SOAP since he has been using it at the Institution (taking a hundred boxes a year) is a saving to the State of nearly one-half." Ask your grocer for WHITE NICKEL. If he hasn't it, try the next.

IN DARKEST RUSSIA'S PLOT WISCONSIN NEWS IN BRIEF LOCAL UNION ELECTION.

Deals With Life In the Land Where the Czar Rules.

In our time we have the cream of dramas visit our city and the best companies ever organized were proud to pay us a visit, consequently if there is one thing we know how to appreciate it is a good drama. The announcement that Sidney K. Ellis's powerful drama, "Darkest Russia" will be seen at the Myers Grand, Tuesday, Jan. 25th, will be welcome news to the local theatre going public. It shows that the manager has been looking to the interests of our people in the amusement line. "Darkest Russia" is from the pen of H. Gratton Donnelly and his success as a play writer is widely known. He has shown won-

derful ingenuity in its construction, and in colors bright and vivid he depicts every phase of Russian life. The Nihilist in his rendezvous, the noble in his palace and the exile in far off Siberia, each have a place in the story, and the characters are all strong and effective. Although the plot is Russian, the drama itself is written in lines to strike the American idea. The spectator in the gallery is as much interested as his neighbor who holds a coupon for the parquet. Never before has a play treating of Russian character, been presented in such an interesting manner.

NEW POST OFFICE A MODEL

Chas. Taylor Has Made a Marked Change In Orfordville Accommodations

Charles Taylor is fairly settled in the Orfordville post office and has made arrangements that insure the satisfaction of patrons. He has put up a post office building adjoining his drug store. There is a large glass front admitting plenty of light, and the boxes constitute a tight partition, filled from the upper tier to the ceiling with glass sash. There is a section of lock boxes of the latest design, and a light airy room in the rear for the handling of the mail, and private apartment for the transaction of the money order business are some of the details connected with the office under a republican administration. In short, it is "an ideal post office for a country town," as many Orfordville people are proud to say.

COMMON SENSE CURE.

Pyramid Pile Cure Cures Piles Permanently by Curing the Cause.

Remarkable Remedy Which Is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see this article suffer from piles. It is one of the most common diseases and one of the most obstinate. People have it for years and just because it is not immediately fatal they neglect it. Carelessness causes no end of suffering. Carelessness about so simple a thing as piles has often caused death. Hemorrhages occur from no apparent cause and loss of blood causes death. Hemorrhages occur during surgical treatment, often causing death.

Piles are simple in the beginning and easily cured. They can be cured even in the worst stages, without pain or loss of blood, quickly, surely and completely. There is only one remedy that will do it—Pyramid Pile Cure.

It allays the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound healthy condition. The cure is thorough and permanent.

Here are some voluntary and unsolicited testimonials we have lately received: Mrs. M. C. Hinkley, 601 Mississippi St., Indianapolis, Ind., says: "Have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure."

Druggists sell Pyramid Pile Cure or will get it for you if you ask them to. It is but 50 cents per package and is put up only by Pyramid Drug Co., Marshall, Mich.

Cloak Business . .

Is good--better than usual in this month, but whether it is because there's more money in circulation or that we are giving better values than ever before, we cannot tell. Certain it is that business in the cloak department reminds us of the busy times during early season. Of course there are many reasons why women are buying cloaks at this time, the most important being that the new and stylish coats which have been priced at \$9 to \$15 can be bought today a \$5.00, and coats which have been up to \$7.50 are now down to \$2.87. This applies to misses' jackets as well as to ladies' garments, whether jackets or capes.

It is well to have in mind that the line of new, stylish garments which we show at this time is larger and more complete than the average store shows at the beginning of a season. For large women we have plenty of good coats in 40, 42, 44 and 46 bust measure at both the above prices---\$2.87 and \$5.00.

Gaiter Leggings--For ladies, misses and children in six sizes, made of black jersey cloth, with buttons and straps. Prices 75c to \$1.35 according to size. No gaiter on the market to equal them for warmth.

Fleece Lined Hosiery--Have all sizes, in two qualities for ladies--25c and 35c, and at the prices they are excellent value. For children, have a line, sizes 6 to 9 1/2, at 10c and 12 1/2c

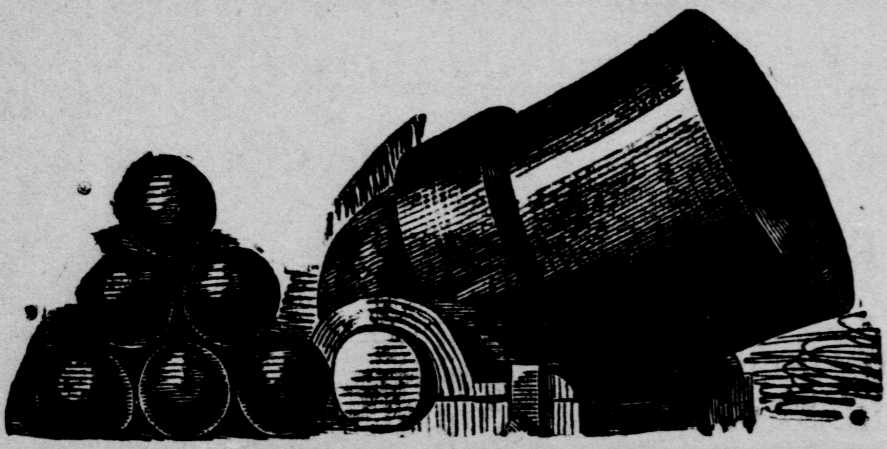

All lines of Winter Goods are priced low.
